

Air Pro 2/CamoCam/Speed Pro Firmware Update Guide:

- Power Air Pro 2 / CamoCam / Speed Pro, camera ON and plug to PC using the USB cord
- Drag or copy file to root directory of camera
- Eject the camera using safe mode
- Unplug USB cable from camera
- Camera will vibrate and will shut off
- Turn the camera on
- Once the camera vibrates, let go of power button
- LED will flash red and green for 20 seconds and will stop when update is completed
